## Disasters:

### Declaration Number

FEMA-1758-DR-AR

## Narratives

### Disaster Damage:

II. The Effects of the Disasters and Arkansas's Recovery Needs A. Areas Affected by the Disasters In May 2008, the State of Arkansas was devastated by a series of tornadoes, floods and severe storms that inflicted serious damage to a significant portion of the state. In addition to the loss of life and serious injuries that resulted from these natural disasters, damage estimates to public and private buildings and infrastructure soared into the millions of dollars. Despite assistance from the Federal Emergency Management Agency (FEMA), the Economic Development Administration (EDA), the Small Business Administration (SBA), insurance companies and public and private benefactors, many areas of Arkansas remain financially stressed due to rebuilding costs and income loss resulting from business disruptions. The massive scope of damage from these disasters prompted President Bush to issue multiple disaster declarations. Counties identified in one of these declarations are eligible for assistance appropriated under PL 110-252, the Supplemental Appropriations Act, 2008. Table 1 Arkansas Counties Under Disaster Declarations Eligible for PL 110-252, 2008 Assistance Incident Period Disaster Number Declaration Date Number of Counties Affected\* May 2 – May 12, 2008 FEMA #1758 May 20, 2008 12 \*A map of affected counties is included in Attachment A to the Action Plan. 1. FEMA Disaster #1758 On May 20, 2008, President Bush issued a Presidential Disaster Declaration for Arkansas counties damaged by tornadoes and flooding from storms that hit the state beginning May 2nd. The following 12 counties were included in the disaster declaration: Arkansas, Benton, Cleburne, Conway, Crittenden, Grant, Lonoke, Mississippi, Phillips, Pulaski, Saline and Van Buren. B. Federal and State Disaster Responses To effectuate disaster relief, long-term recovery, and restoration of infrastructure in areas affected by flooding and other natural disasters, Congress passed the Supplemental Appropriations Act of 2008 (Public Law 110-252, approved June 30, 2008) to help states fund unmet needs resulting from these disasters. On October 27, 2008, HUD announced the release of \$4,747,501 to the State of Arkansas to address needs in counties included in President Disaster Area # 1758. C. Ongoing Damage Assessment Assessing the total financial needs of the state resulting from the disasters is a difficult and ongoing process. To determine the extent of damages in each county, the Arkansas Economic Development Commission (AEDC) received from the Arkansas Department of Emergency Management (ADEM) FEMA data, estimating the extent of public damages in each county by disaster. In addition, the AEDC solicited community and county damage information from each of the state's eight Planning and Economic Development Districts ("Districts") (See Appendix B). In estimating the need for CDBG assistance in the affected counties, the AEDC will rely upon information supplied by FEMA, ADEM, and the mayors and county judges of Arkansas in conjunction with each district. Since the full extent of the state's needs cannot be determined at this time, the initial Action Plan will only outline the major categories for funding with estimated dollar amounts set aside for each District. Set aside amounts may be adjusted in amendments to the Action Plan should more accurate information become available.

### Recovery Needs:

I. Methodology Used to Distribute Funds A. Allocation Formula To insure that local needs are addressed in a timely and equitable manner, the state will rely on assistance from the eight Districts in the state. Because Arkansas's Districts have toured areas affected by the disasters and have maintained ongoing dialogue with every unit of local government affected by the 2008 disasters, they are therefore well qualified to inform the AEDC of local recovery needs. On February 5, 2009 the state held a meeting of key stakeholders to assist in the development of an equitable method to distribute CDBG supplemental appropriations. Attendees included representatives from each District, as well as representatives from the Arkansas Community Development Association (ACDA), the organization of Arkansas entitlement cities. Also in attendance were representatives from the IEA and ADFA. As a result of this meeting, a task force was established to assist in the development of a distribution method. The task force recommended that a formula be developed that would set aside funds for Districts to distribute to cities and counties within their geographic area. The proposed formula would use the following variables to determine the amount of

money to set aside for each District. 1. The amount of Public Assistance (PA) damage assessed in each county by FEMA for disaster FEMA #1758 (50% of the scoring). 2. The percentage of low-to-moderate income (LMI) persons residing in each county as documented by the 2000 Census (25% of the scoring). 3. The number of LMI families residing in each county as documented by the 2000 Census (25% of the scoring). Based upon preliminary calculations\* funding for all disasters would be distributed among Districts as follows: • Central Arkansas Planning & Development (Six counties) - \$953,765 • East Arkansas Planning & Development (Twelve counties) - \$1,250,328 • Northwest Arkansas Economic Development District (Nine counties) – \$293,763 • Southeast Arkansas Economic Development District (Ten counties) - \$915,606 • West Central Arkansas Planning & Development (Ten counties) - \$374,867 • White River Planning & Development District (Ten counties ) - \$722,078 Southwest Arkansas Planning and Development District and Western Arkansas Planning and Development District would receive no funding because none of their counties were included in the defined disaster area declared by FEMA #1758. \*Note: These amounts exclude 5 percent of the allocations for administration costs. Adjustments to these amounts may be made should more reliable damage information become available. See Appendix D for Fund Distribution by County. B. Pre-Application Process The task force also reviewed and approved a one-page pre-application form (See Appendix E) developed by AEDC that cities and counties would be required to complete to request disaster funding. To expedite the pre-application review process, the task force agreed with an AEDC recommendation that the Districts assist in the initial screening of projects for general compliance, eligibility and need. The pre-applications will then be forwarded to AEDC for scoring. The highest scoring applicants within each District will be invited by the AEDC to submit a full application for funding. The task force is currently developing scoring criteria based upon the following variables including, but not limited to: 1. Urgency of need, as defined by the degree of threat to the health, safety and welfare of the community 2. Percentage of persons in the project area who are of low to moderate income 3. Extent of loss of housing units in the neighborhood community or county, especially those units affordable to low and moderate income persons 4. Time frame for completion of the project 5. Number of declared disasters affecting the county in 2008 6. Amount of total dollar damage affecting the applicant area Final variables and exact weighting of each variable will be determined by the task force at a later time, prior to initiation of the pre-application process. Counties and cities, including entitlement cities are eligible to submit pre-applications for funding consideration. All projects must meet a national objective and provide disaster relief, long-term recovery, or restore infrastructure. Any funds not used in any District may be transferred to another District at the discretion of the AEDC. Under no circumstances may funds duplicate other benefits.

### Overall Progress Narrative:

In the Quarter ending Sep 30, 2015 ... 95% of grant B-08-DF-05-0001 has been committed/executed. Draws totaling \$56,367.21 were disbursed this quarter (payments made to cities/counties), an average of 96.48% of grant B-08-DF-05-0001 has been drawn at the end of the 3rd Qtr. ending Sep 30, 2015. No grants were closed this quarter with all project activities complete, grant closed and accomplishments added to DRGR. De-obligations totaling \$00.00 have been performed on this grant. These funds will be used in other projects.

In Jul 2015 Draws totaling \$ \$364.31 were disbursed (payments made to cities/counties), 95.24% of grant B-08-DF-05-0001 has been drawn at the end of July 2015.

In Aug 2015 Draws totaling \$0.00 were disbursed (payments made to cities/counties), 95.24 % of grant B-08-DF-05-0001 has been drawn at the end of August 2015.

In Sep 2015 Draws totaling \$56,002.90 were disbursed (payments made to cities/counties), 96.48% of grant B-08-DF-05-0001 has been drawn at the end of September 2015.

**Activity Description:**

The project consists of the repair of the drainage system as well as street, curb and gutter improvements to West and Park Streets in Helena / West Helena. The City's drainage system does not have the capacity to contain the water when heavy rains occur and has deteriorated the curbs and streets in this area. Construction will consist of the replacement of drainage ditches with pipe drainage on West Street and Park Street. Area streets will be resurfaced and curbs will be repaired.

**Location Description:**

West and Park Streets in Helena / West Helena, Phillips County, Arkansas.
