

GOVERNOR'S QUICK ACTION CLOSING FUND ANNUAL REPORT

FISCAL YEAR 2020

The Governor's Quick Action Closing Fund (QACF) is a vital tool for economic development in Arkansas. Traditionally, the QACF has allowed the Governor to act quickly and decisively in highly competitive recruitment situations to finalize an agreement with a company to choose Arkansas as the location for an economic development project. Since 2007, the program has increased the ability of the Arkansas Economic Development Commission to close deals with companies that have increased jobs, created new investment, and broadened the State's tax base. During fiscal year 2020, the QACF assisted AEDC in securing commitments from companies in competitive recruitment situations that helped to generate record low unemployment and grew the state's per capita personal income.

The support from Governor Hutchinson and the General Assembly to continue to fund this appropriation on an annual basis has not only provided AEDC with an important tool to win competitive economic development projects, but also has provided needed assistance to existing businesses during the COVID-19 pandemic.

Since 2007, QACF has assisted companies to propose 94 job creation and/or retention projects in Arkansas. These projects cumulatively have proposed the creation and/or retention of 29,573 jobs at an average hourly wage of \$20.95 and projected new investment of \$3.18 billion. As of June 30, 2020, these 94 projects have created and retained 24,134 jobs.

In March of 2020, the COVID-19 global pandemic created an unprecedented health and economic crisis in Arkansas and the United States. In response to assistance requests from businesses around the state, AEDC allocated \$4,000,000 of QACF to create the Quick Action Loan Program. Attorney General Rutledge provided an additional \$3,000,000 from the Consumer Education and Enforcement Fund to support the program. The Quick Action Loan Program provided \$7,050,000 in loans to 412 existing companies that had been impacted by COVID-19. The intent of these loans was to serve as bridge for affected businesses until more significant federal assistance became available.
