

The Modern Workplace Program

- Educators and industry representatives must collaborate to create an education environment that allows our emerging workforce to lead productive lives & satisfy the needs of Arkansas businesses.
- To facilitate the connection & communication between educators & industry representatives, please consider taking part in *The Modern Workplace* program.
- Objectives of the program are:
 - Connect educators with local/regional employers to gain familiarity with local products & processes utilized in the workplace.
 - Link employers with the local/regional school system to foster ongoing relationships with educators.
 - Provide educators with local/regional business context they can use to supplement current teaching curriculum.
 - To familiarize educators with career opportunities in local industry & the skills needed to be successful.

Phase One: The Workshop

- One-day program designed specifically for teachers or educators that is led by skilled facilitators & enriched by guest speakers & community leaders.
- Experience a simulated workplace & see firsthand the modern manufacturing processes.

The Modern Workplace Program is approved for Professional Development by the Arkansas Department of Education

Phase Two: Business Tours

- Tour business & industry locations that demonstrate concepts taught at the workshop.
- Engage with company leadership to determine & understand their needs.
- Bring real-world knowledge back to your classroom so students understand the value of learning & what will be expected of them in the Modern Workplace.
- Discover the financial benefits & lifelong earning potential that a career in manufacturing can provide.
