

## The Kwema Smart Badge Reel™ for employee safety USE CASES

### ON-SITE SOLUTION

1

In the event of an incident or evacuation, employees can push the button on the side of their badge reel for 3 seconds, activating a silent alarm.

2

The signal pings the nearest access point via bluetooth and forwards the alert to your security team within seconds.

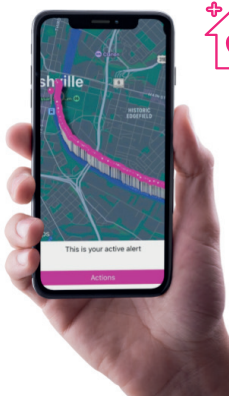

3

Using our Kwema Emergency Response Dashboard, or integrating it within your existing system, security can see exactly who pressed the alert, where the alert came from, and respond appropriately.

### OFF-SITE SOLUTION

Sync your Smart Badge Reel to the Kwema App via bluetooth and call alerts using cellphone GPS. Similar to our On-Site solution, alerts are collected by the Kwema Response Dashboard. If no security team or protocol exists, local city, county or government emergency services such as 911 can receive alerts and dispatch first responders.

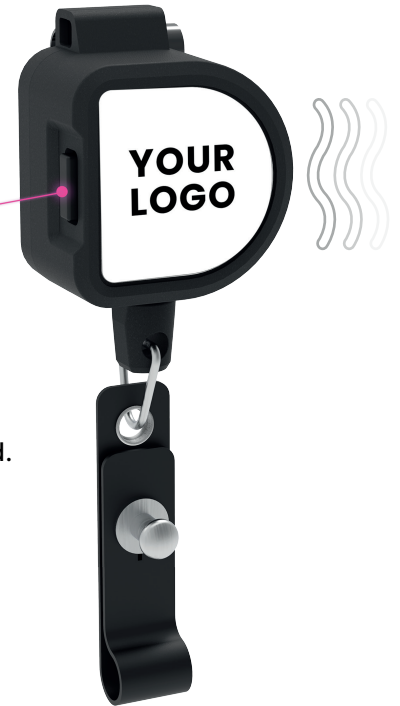

# SMART BADGE REEL™

## TECHNICAL SPECIFICATIONS INFORMATION

### FEATURES AND BENEFITS

- Haptic feedback with each alert sent.
- The battery life lasts for more than 700 alerts.
- Standard Duty retraction force holds up to 4 oz. and has a 24” reach.
- Heavy Duty kevlar cord with an 80 lb. minimum breaking strength.
- Available with swivel clip attachment, alligator clip, carabiner, or lanyard.
- Fully customizable epoxy logo finish.
- Stainless Steel Spring in a 1-3/8” diameter black polycarbonate case.
- Protection: IP-64 (dust protected and water spray from any direction)

Duress Button

### TECHNOLOGY

- Bluetooth 4.2 Low Energy wireless 2.4GHz RF
- Ultra-low power consumption
- 32-bit ARM® Cortex™ M4F CPU core
- Nordic nRF52832 processor

### ENVIRONMENTAL

- Temperature -10°C / + 60°C (14°F / +140°F)
- Humidity from 0% up to 90%

### POWER

- Cell, replaceable, non-rechargeable, battery type 3V
- Lithium coin 1 x 137mAh CR1632
- Current: 0.215 mA average, 7.290 mA instantaneous

### DIMENSIONS AND WEIGHT

<b>Height</b>	55.62 mm (2.19 in)
<b>Depth</b>	29.21mm (1.15 in)
<b>Width</b>	37.33mm (1.378 in)
